

**REMARKS**

This Amendment is being file in response to Examiner Speer's telephonic request to provide the USPTO with a full set of claims being added that are designated "new" and underlined in their entirety relative to the original patent.

In addition, as requested, Applicant has amended the specification to recite the appropriate priority claim.

It now appearing that this continuation reissue patent application is ready for issue, Applicant earnestly solicits a notice of allowance so that it can promptly secure a reissue patent containing allowable claims 38-63. Applicant invites the Examiner to call the undersigned attorney if it appears that a phone conference would further this case in any way.

Respectfully submitted,

Dated: 01/29/2010
